

### 6DAW4\_3 series

6W - Dual Output - 4:1 Ultra Wide Input - Isolated & Regulated DIP DC-DC Converter

### **DC-DC Converter**

6 Watt

- # High Efficiency up to 88%
- Operating Temperature: -40°C to +85°C
- ← Wide input range (4:1)
- → 3kVDC Input/Output Isolation
- ♠ Short Circuit Protection (SCP)
- FIEC60950, UL60950, EN60950 approval
- No-load power consumption as low as 0.12W
- Over-voltage protection
- Over-current protection
- Input under-voltage protection
- Meet CISPR32/EN55032 CLASS A
- ♠ Industry standard pin-out
- **RoHS** Compliance

The 6DAW4 $\_$ 3 series of isolated 6W DC-DC converter products with 4:1 input voltage. They feature efficiencies of up to 88%, 3000VDC input to output isolation, operating ambient temperature of -40°C to +85°C, input under-voltage protection, output short-circuit protection.

The products meet CLASS A of CISPR32/EN55032 EMI standards, they are widely used in applications such as industrial control, electrical power, instrumentation and telecommunication fields.

| C                              |  |
|--------------------------------|--|
| Common specifications          |  |
| Short circuit protection:      | Continuous, automatic recovery   |
| Cooling:                       | Free air convection  |
| Operation temperature range:   | -40°C~+85°C / Derating if the temperature is ≥71°C (see Typical characteristics) |
| Storage temperature range:     | -55°C ~+125°C  |
| Temperature rise at full load: | 40°C TYP   |
| Lead temperature range:        | 300°C MAX, 1.5mm from case for 10 sec  |
| Vibration:                     | 10-55Hz, 10G, 30 Min. along X, Y and Z   |
| Storage humidity range:        | < 95%  |
| Case material:                 | Plastic(UL94-V0)   |
| MTBF (MIL-HDBK-217F@25°C):     | >1,000,000 hours   |
| Dimensions/Weight:             | 31.60 × 20.30 × 10.20 mm - 13g (typ.)  |

<sup>\*</sup> Input voltage can't exceed this value, or it will cause permanent damage.

# Typical characteristics

# Typical application

All the DC-DC converters of this series are tested according to the recommended circuit (see Fig. 1) before delivery.

If it is required to further reduce input and output ripple, properly increase the input & output of additional capacitors Cin and Cout or select capacitors of low equivalent impedance provided that the capacitance is no larger than the max. capacitive load of the product.

| Vin (VDC) | Cin (uF) | Cout (uF) |
|-----------|----------|-----------|
| 24        | 100      | 10        |
| 48        | 10~47    | 10        |

## Efficiency

## EMC solution-recommended circuit

Notes: Part 1@ is used for EMS test and part 2@ for EMIfiltering; selected based on needs.

It is not allowed to connect modules output in parallel to enlarge the power!

Pin diameter tolerances: ±0.10mm [±0.004inch] General tolerances: ±0.25mm [±0.010inch]

Note:Grid 2.54\*2.54mm

| Pin-Out    |        |      |  |  |
|------------|--------|------|--|--|
| Pin        | Single | Dual |  |  |
| 2,3        | GND    | GND  |  |  |
| 9          | No Pin | OV   |  |  |
| 11         | NC     | -Vo  |  |  |
| <b>1</b> 4 | +Vo    | +Vo  |  |  |
| 16         | ov     | ov   |  |  |
| 22,23      | Vin    | Vin  |  |  |

#### Note:

- 1. The max. capacitive load should be tested within the input voltage range and under full load conditions;
- 2. Unless otherwise specified, data in this datasheet should be tested under the conditions of Ta = 25%, humidity <75%RH when inputting nominal voltage and outputting rated load;
- 3. The recommended unbalance degree of the dual output module load is ≤±5%; if the degree exceeds ±5%, the product performance cannot be guaranteed to comply with all parameters in the datasheet. Please contact our technicians directly for specific information;
- 4. All index testing methods in this datasheet are based on our Company's corporate standards;
- 5. The performance indexes of the product models listed in this datasheet are as above, but some indexes of non-standard model products will exceed the above-mentioned requirements, and please directly contact our technicians for specific information:
- 6. We can provide product customization service;
- 7. Specifications of this product are subject to changes without prior notice.
